Petitioner ) Docket No.07-ALJ-17-xxxx  
)  
Vs. ) PETITIONER'S RESPONSE TO  
) PRODUCTION OF DOCUMENTS  
South Carolina Department of Revenue ) From SC DOR  
Respondent )

Petitioner hereby files his Response to Respondent's Request for Production of Documents dated, October 2, 2007 as follows:

1. Petitioner is unable to prove a negative. Petitioner has no records to prove these figures are correct. The figures do not appear correct.
2. Same as #1, above.
3. Same as #1, above.
4. Petitioner does not know if he has these documents, but will search for them and mail them separately, if found.
5. Petitioner has not submitted any complaints to law enforcement authorities in reference to the contention that an illegal alien stole his Social Security number because until now, Petitioner was unaware that this could be a possibility.  
"MSNBC.com Research and government reports suggest hundreds of thousands of American citizens are unknowingly lending their identity to illegal immigrants so they can work. And while several government agencies and private corporations sometimes know whose Social Security numbers are being ripped off, they won't notify the victims. That is, until they come after the victims for back taxes or unpaid loans owed by the imposter." (Entire article attached.)  
It is common knowledge that on construction sites that when an American leaves, the foreman will assign the same personal identifiers to an illegal alien.
6. Same as #5 above.

**CERTIFICATE OF SERVICE: I do hereby certify on this date that a copy this pleading was sent properly to opposing counsel.**
