Re: USA vs. Clarkson and Patriot Network, docket # 8:05-2734-HMH-BHH

Dear Agent Andy:

As you know the DOJ has sought an injunction against me and my political organization in US District Court in Greenville, SC, docket # above.

When you and your crew raided my house, you removed my computer with my document file, many of the pleadings dealing with this case and almost all of my exhibits.

Please return these to me as these are part of a lawsuit and I need the pleadings and these exhibits to prepare and present my defense. If you like, I can go through the materials that you took from me and pick out what I need particular for this case.

I hereby request that you return to me everything that you seized or at least the material that has no bearing on your investigation.

I met with you on the afternoon of May 8 in your office in Asheville. You told me that you were investigating me for numerous tax crimes. However, we know that your agency has no power in this regards because that area is exclusive jurisdiction of the IRS.

Further, you stated that you are investigating me for a list of activities which are covered by the original complaint in this case. However, the DOJ has for the most part abandoned the original charges against me and focused on two areas. Please coordinated with the DOJ attorneys in this case and then return to me all materials which you have not pertaining to their investigation.

You also stated that you are investigating a number of people in your area for what you call "debt elimination" which I call "bank instruments". You stated upfront that you knew that I was not directly involved with this activity and the people who were involved in this activity. I made it very clear that I had no involvement with this type of political action or most of the people involved. My first letter to you pointed out that I knew very little about those activities and what I thought I knew turned out be wrong.

You have no reason to keep any of the vast materials that you took from me and YOU SHOULD RETURN IT! If not, I will move the court in South Carolina for an order requiring you to return to me the materials related to the above- listed case.

Enclosed is a copy of a huge Federal Reserve Note printed by some church or political organization. Go arrest them also!

Yours,

Robert Clarkson  
cc Attorney Schaeffer, DOJ, Washington DC
